Re: 1986 Annual Report, Mi Vida Mine
ACT/037/028

Dear Mr. Braxton:

Regarding activity at the Mi Vida Mine in San Juan County, there has been no additional surface disturbance or reclamation work since the last report.

The last significant mining occurred in early 1985 by Rio Algom Corporation. Enclosed is an updated map to show the mine workings as of 1985. (placed in confidential files, FF-87)

Under terms of an exchange agreement, on or before September 22, 1987, Energy Fuels of Denver, Colorado will assume a 100% working interest in the lease from San Juan County. After that date please direct all correspondence to them.

Thank you for the cooperation and assistance your department has given us in the past.

Very truly yours,

MINERALS WEST, INC.

Thomas M. Nielson
